# Please read

When making this updated list, I considered **emergency** help only and discarded the following services

1. If the 'suggested' or 'asked' cost was above £4 for a meal, as I considered this was on the cusp of enough to buy some food and get better value
2. If I couldn't find any current or sufficient information on the service listed
3. If conditions or suggestions other than simply providing food and advice were implemented - these will go in a separate list
4. Services that helped specific sets like drug abuse or alcoholism, these are very valuable services and are listed on the website and other lists available to foodbanks

Many services has simply ceased to exist, so have not of course been included

Bear in mind this a an ongoing and first listing, I'm still trying to get in touch with some services.
